Native Forest Dedication Program Nursery List

* The nurseries in this list represent businesses that specialize in native plant propagation and distribution and is intended to help landowners interested in native forest restoration attain native plants for their reforestation projects. The Native Forest Dedication Program Plant Nursery List is a compilation of resources generously provided by the Big Island Invasive Species Committee (BIISC) Plant Pono Website and Dr. J.B. Friday of the University of Hawai‘i at Mānoa College of Tropical Agriculture and Human Resources Cooperative Extension Service. Nurseries with an asterisk (*) indicate nurseries that are officially endorsed by BIISC and Plant Pono. This nursery list is subject to change and does not represent the complete list of nurseries where native, non-native/non-invasive plant species can be purchased. For a complete list of businesses endorsed by BIISC and Plant Pono please visit their website at: <https://plantpono.org/hawaii-island/>.
